STUDENT & ALUMNI REACTION TO SHABBAT DINNER AT CHABAD

From my first Shabbat Dinner at Chabad to my last, I never felt out of place and always felt at home. This coupled with the fact that I still don't entirely know the words of every song, or exactly what to do when, is just amazing. You opened up your home to me every single week, and I thank you tremendously for that.

Student

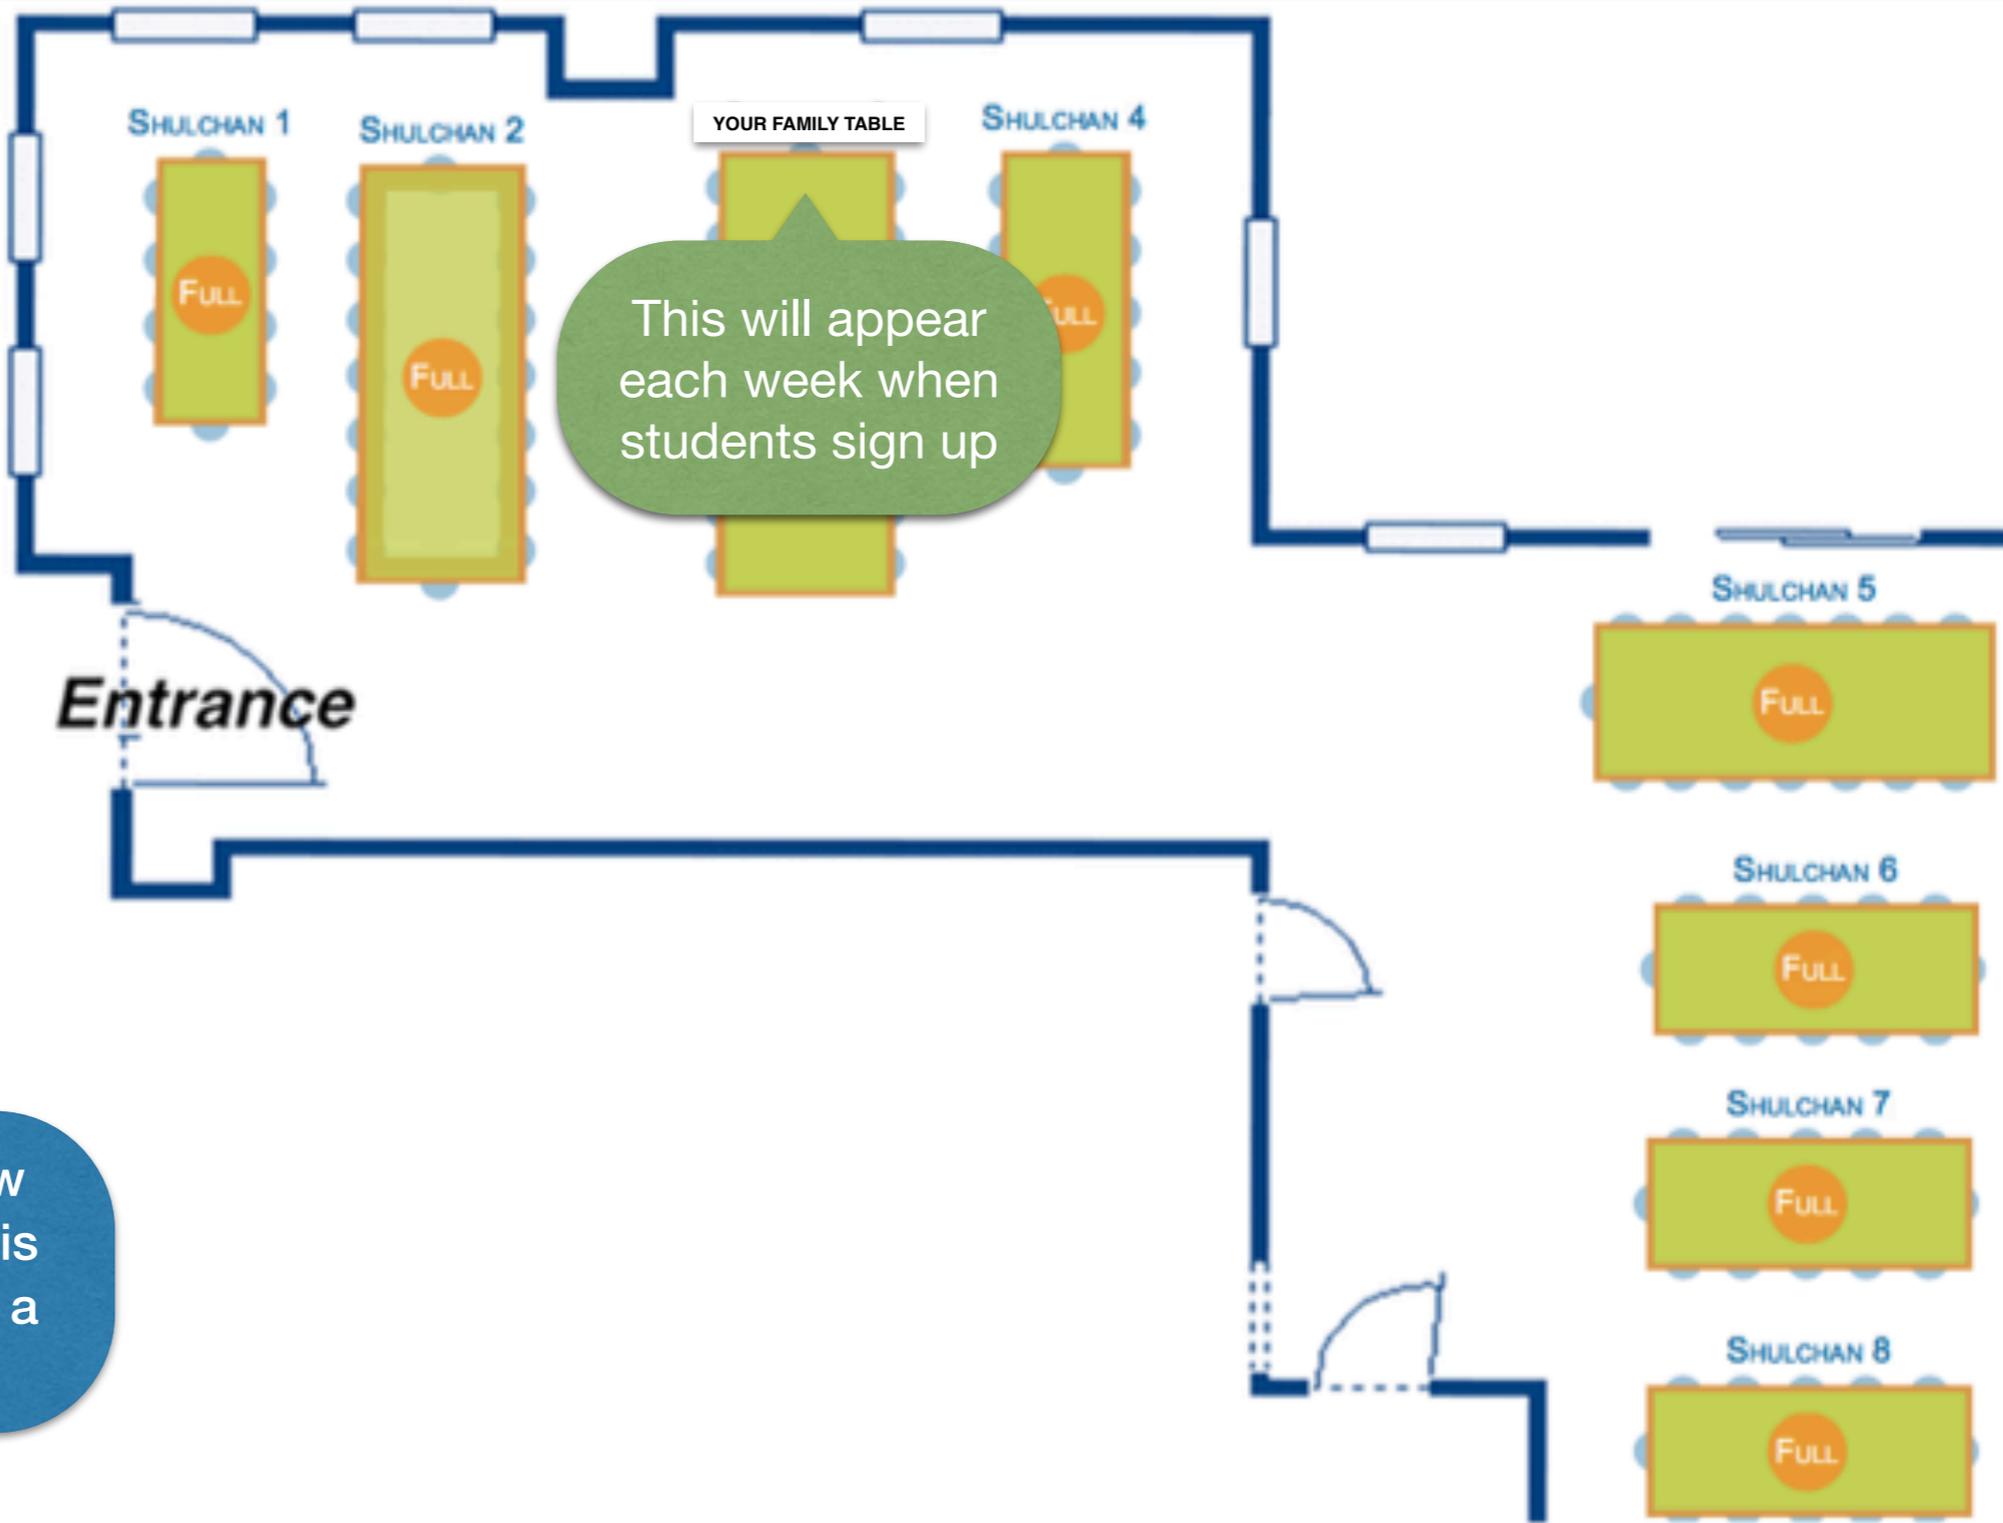

Now that it's been a little more than 6 months since graduation, I've really noticed just how much of a special place Chabad was. I do my best to have Shabbat meals with Brandeis friends, but it's not feasibly something I can do every Friday. No where else does the world stop like it does at Chabad. It's tough to get 15 people to do a Shabbat meal and you both were able to get more than a hundred every single Friday night and I really miss that.
